
THE ROOTS

Piece for 11 dancers / Running time 90 minutes without interval.

Technical requirements (May 16)

These technical requirements are an integral part of the contract, and are guidelines to have the performance. An initial and signed copy must be returned.

It cannot be modified, without express agreement between the technical manager of the company and the venue's technical manager.

The elements of the scenography

- Our painted dance carpet covering your black dance carpet. We place it stage right/stage left, 2 options possible, according the frame opening 12m or 10m, depth 10,50m (réductible by 1,50m strip).
- We place our painted gauze upstage (width 14m height 8m). We provide 14m of aluminium pipe to weight the pipe pocket.
- We place on the stage the following elements:
 - A couch with rollers radio controlled.
 - An armchair.
 - A standard lamp radio controlled.
 - A table.
 - A trampoline.
 - A bedside radio-controlled table with a record player.
 - 3 chairs.

The day of the set up, the stage with the black dance carpet, must be clear of any set or prop, the grid free of projectors, and the velour we don't need must be tidied away. The stage floor needs to be even and in good conditions.

Please provide the cleaning of the stage before each rehearsal and performance.

STAGE (Variations are possible, please contact us).

- Proscenium/frame opening 10 or 12 m following version.
- Minimal stage width 15 or 18 m.
- Minimal depth frame/upstage 12 m.
- Height under grid 10 m, minimal 8 m.

SOUND

Sound board will be placed behind the audience and axis of the stage, close to the light control board, with a separate supply power. The equipment must be set up and calibrated before our arrival. Sound check and performance will be done by our sound engineer.

The power of the Professional sound system (L Acoustics, Meyer, D&B, Nexo, Amadeus etc) has to be adapted to the size of the house.

If it's a big house and / or balcony, please provide enough speakers and delays to assure a good level. It would be better that all the system will be from same reference brand.

PROVIDE

CONTROL ROOM

- 1 digital sound board (Soundcraft VI series, Digico, Yamaha cl series, M7cl, Digidesign, etc) or analog (Midas, Soundcraft, etc) with 4 EQ signal tone by channel and 12 separated outputs.

We use 8 groups out on stereo (10 if necessary) for:

Group out : 1/2, 3/4 & 5/6 for the monitors (behind the frame, middle of stage, and upstage).

(Group out : 7/8 for two more monitors if necessary).

Group out 9 : Subs upstage on mono.

Stereo out : Front of House.

Mono sum or Group out 10 : Subs of the FOH, on mono.

The FOH subs must be controlled independently of the FOH.

One 31 bands Graphiq EQ per output channels.

- 1 HF micro in the house for the rehearsal.
- **If analog sound board or digital without these equipments, thank you to provide :**
- 2 stereo delays for the FOH stereo and the front stage monitors (and more if more delay in the house).
- 1 stereo compressor.
- ONE 31 bands graphiq EQ per output channels. (no yamaha please).

STAGE We recommend 15" monitors.

- 2 monitors (115xt) on feet front stage + 2 monitors (115xt) on feet at the middle side stage + 2 monitors (115xt) on the 2 Sub-bass (218 or 118) upstage.

According the size of the stage, we would need to more monitors on feet on stage.

HOUSE

- FOH stereo + sub bass mono independent (L Acoustics, Meyer, D&B, Nexo, Amadeus, etc).
- We use 2 laptops with sound cards and a CD player thank you to provide a table for our equipments.

Please contact our sound engineer for any question before our arrival.
